

Re: Circuit Services, LLC dba Career Technologies ITAR Registration

Please note that Circuit Services, LLC dba Career Technologies (Career Technologies) currently is registered with the U.S. Department of State, Directorate of Defense Trade Controls (“DDTC”) to engage in activities regulated under the International Traffic in Arms Regulations (“ITAR”) pursuant to the ITAR registration code M45013 issued by DDTC on July 16, 2021 to Career Technologies parent Fralock Buyer LLC, a Delaware limited liability company (“Fralock Buyer”). Specifically, Career Technologies is listed in Block 8 of Fralock Buyer’s ITAR registration statement (Form DS-2032) as a subsidiary of Fralock Buyer that engages in ITAR-related activity.

Because Career Technologies now is listed as a subsidiary of Fralock Buyer on Fralock Buyer’s ITAR registration, Career Technologies is no longer required to maintain its own, separate ITAR registration. Therefore, the separate ITAR registration under which Career Technologies previously operated M-26025 will be relinquished, and Career Technologies will engage in ITAR-regulated activities pursuant to Fralock Buyer’s ITAR registration M45013. A copy of DDTC’s acknowledgment of Fralock Buyer’s ITAR registration is attached.

If you have any questions, please do not hesitate to contact me at bobbir@fralock.com or (661) 367-9118.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bobbi Booher". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
